AMERICAN AND FOREIGN OFFICE.

R. H. EDDY, Solicitor of PATENTS

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patent granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents

From the present Commissioner

AUGUST 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. "The Monroe Doctrine."

There has been a good deal said by the public press, by Congressional and other orators, and by smaller politicians here and there, within the last few years, relative to "the Monroe doctrine," as it is called, and the necessity of its enforcement. What is this "Monroe Doctrine?"—for, after all the talk about it, we suspect it is but poorly understood by the mass of the American people.

Somewhere about forty years ago, (we have not the documents at hand, and the date is not material,) James Monroe, being then President of the United States, took the ground in one of his messages, that the American people ought not any longer to suffer the governments of Europe to meddle with the political affairs of the various States and nations on this continent—that England, France, Spain, and other governments of the old world, should content themselves with the colonial acquisitions they have already made in this Western hemisphere—that their acquisitions should be no farther extended,—and that all European interference, in case of disagreements, revolutions and reconstructions of American communities, outside of the then existing colonial possessions on this continent, ought to be steadfastly and forever opposed.

This, as nearly as we can recall it—for we have not seen the precise language of Mr. Monroe quoted in a long time, and the message is not just now accessible, this is substantially the "Monroe Doctrine," so often referred to, and so seldom explained. That it is peculiar, exclusive and of rather a warlike aspect, is the impression its announcement would be likely to make on a fresh and reflecting mind; but those who remember anything of the hatred and disgust engendered in this country by the so-called "Holy Alliance" in Europe, many years ago, would naturally regard the "Monroe doctrine" as of a defensive and salutary tendency, and rather wish to see it carried out.

There are, indeed, some difficulties in the way of its practical enforcement—difficulties neither few nor small. And these have, thus far, operated to prevent anything but talk about it; though it is by no means certain that the bare proposition has not exerted a latent and decided influence—for it is evident that the evils, whether real or imaginary, at which the "Monroe doctrine" was chiefly aimed, have in a great measure ceased to exist on our continent.

A question, however, has lately arisen which has called for a new quotation, if not a new construction, of the "doctrine" in question, and which may possibly lead to something more than words—but we think not. The Central American States of Costa Rica and Nicaragua have had a boundary question up for settlement; and the latter State having suffered severely from various fillibuster invasions from the United States, the two governments above named have joined in an appeal to France and England to protect them from like assaults in future.

And what says our government to this appeal? Well, that remains to be seen.—But, meanwhile, the "Agent of the Associated Press" at Washington has telegraphed all over the country that "the government will act in accordance with the Monroe doctrine," and that it "will not consent to any French or English interference with Central American affairs." In other words, our government is going to shelter and protect the fillibuster business to the fullest extent! We are going to keep off European wolves, in order that we may ourselves devour the flock!

Is *that* the meaning of the "Monroe doctrine," as understood by our rulers at Washington? We do not like to believe it.

A correspondent of the Cincinnati *Gazette*, writing from the White Sulphur Springs, says: "On the bank of the river, above this place about a mile, in a rude tenement built of stone, there lives a family whose history and characteristics constitute a curiosity. The members of this family consist of two brothers and one sister, ranging in age from seventy to eighty years. None of them are married, and they have lived where they now reside over fifty years, and own two farms. None of them have ever visited Columbus, or even Delaware, the county town; or seen a railway, locomotive or steamer, though the Springfield and Mt. Vernon Railway passes within two miles of one of their farms. They have three old fashioned flint guns, each of which they say have done good service in the slaying of bears and Indians, each gun being remarkable for some one particular exploit in this line.

Prof. Morse, fifteen years ago, in a letter to the then Secretary of the Treasury, the Hon. John C Spencer, gave utterance to the prophecy which has been fulfilled in the complete success of the Atlantic Telegraph: "The practical inference from this law is that a telegraphic communication on the electro magnetic plan may with certainty be established across the Atlantic Ocean. Startling as this may now seem, I am confident the time will come when this project will be realized."

LOCAL NEWS.

Court of Justices.

There was an unusual amount of business yesterday morning, occupying the court from 9 o'clock till nearly 12.

Case first was the State *versus* William Wilson, for violation of the dog law, in course of the examination of which the rights and immunities of the canine fraternity were discussed, and the result was the discharge of Mr. Wilson without costs. As the dog in question was of the feminine gender, with an "interesting family" growing up around her, we presume the matter will be one of peculiar gratulation among her immediate "friends" of the canine race.

Number two was the State *versus* Stephen S. Vars, for violation of City Ordinance in relation to hackney coaches. There is an ordinance that no hack shall stand upon Sayer's wharf previous to 10 1-2 o'clock, A. M., or 7 1-2 P. M., between the 11th of June and the 15th of September. This ordinance Mr. Vars violated, being about five minutes too early, and refusing to recede at the command of an officer. The case was argued at considerable length by W. P. Sheffield, Esq. for the defence, followed more briefly by the City Solicitor for the prosecution. The result was a fine of two dollars and costs—against which decision Mr. Vars appealed to the court of Common Pleas.

Case number three, was the State *versus* Andrew J. Dexter for assault and battery upon a lady. From the testimony of the lady, it was evident that an assault of a more serious nature was intended. Dexter is a worthless fellow about town, following no particular occupation, and has been before the Court a number of times previous. He was sentenced to pay a fine of ten dollars and costs—to stand committed till paid.

Case number four -State *versus* Lucius Richardson and Jeremiah Murphy—Revelling. The "revelling," in this instance took place upon Long Wharf, in the House of the Bay State Steamboat Company. Murphy is a hackman and with others was, waiting for the boat Thursday morning, when the whole party fell to "sky-larking." Among other items of amusement, they lashed Murphy to a truck on which he was sleeping a hack-driver's nap, and commenced propelling him about the building. This arrangement was not altogether to Murphy's liking, more especially as he had not been consulted beforehand, and Sampson like, bursting his bands, he seized a piece of board as the most available weapon at hand, and commenced a pursuit of his tormentors who had fled as he broke loose, and overtaking Richardson, the hindermost, dealt him a blow upon his pate. This roused Richardson's ire, who at once commenced a hot pursuit of Murphy, and overtaking him seized him by the hair and commenced making a vigorous application of his fist to the fugitive's profile, in consequence of which Murphy appeared in Court with a variegated countenance. After a patient hearing of the case, the triumvirate awarded to each a back-handed "premium" of five dollars and costs. Richardson paid up and slid.

Case number five was against William Sampson, who, doubtless catching somewhat of the spirit of his ancient and illustrious namesake, stove a man's face "all ter smash" on the hill yesterday morning, and afterward bid defiance to the officers. For this he was arraigned on a charge of "revelling," plead "guilty," and was fined three dollars and which he paid and was discharged.

Case number six was levelled at John O'Connell, who had the contemptuous audacity to keep two hogs on Bannister's Wharf, in violation of the City ordinance forbidding the domiciling such within thirty feet of any dwelling, and "against the peace and *dignity* of the State." His Honor the Mayor, as City Solicitor, managed the case on the part of the government, and remarked an advance in civilization in certain low quarters of the city, inasmuch as three years ago portly swine occupied eligible positions in cellars, garrets and bedrooms, whereas the same are now assigned places in the yards of dwellings. As these porkers are evidently family pets in certain localities, it was doubtless considered by the Court that they should be taxed as "luxuries," and they accordingly assessed Mr. O'Connell in twenty dollars and costs, as being the Statute fine in such case made and provided.

MR. EDITOR:—Allow me to suggest that the wooden railing around the "Stone Mill" be removed, and that the "English Ivy" be planted at its base, when a most picturesque appearance would be presented by this ancient and mysterious ruin.

A TEMPORARY RESIDENT.

RELIGIOUS.—Rev. Joseph Taggart, a native of this city, is expected to preach in the Central Baptist Church to-morrow morning, and Rev. Dr. Ide, of Springfield, Mass., in the same church in the afternoon.

☞ We are happy to hear that Mr. Remington is invited by the highest authorities in matters of letters and art, to repeat his lecture on the "Harmony of Beauty in art," at Aquidneck House, on next Monday, night, the 16th.

☞ Look out for a rich programme of a [illegible] [illegible] in Newport, in Monday's paper. Have you seen *What hat?*

☞ The following card has been handed us for publication by Mr. Weaver. His house is now the temporary residence of the Hon. Mr. Mallory, United States Senator from Florida, Hon. Mr. Barringer, formerly Minister to Spain, Hon. H. C. Deming of Hartford, Conn.; and the press is represented within its halls by COL. HIRAM FULLER, formerly editor of the New York *Mirror* and at present correspondent of many of the best literary publications, among which might be named the *London Illustrated News*; and Mr. Wilkins, of the *New York Herald*.

A CARD TO THE PUBLIC.

In consequence of the malicious misrepresentations of interested parties, the subscriber feels it a duty which he owes to himself and to the public, to state, that the "OCEAN HOUSE" will *not* be closed until the end of the Newport Season; that, although not full, the "Ocean House" has a larger number of guests than any other hotel in town; and among them, many of the most respectable and distinguished people in the United States. The table, and the accommodations generally, have never been surpassed.

The *Grand Ball* of the Season will be given at the "Ocean House" at the latter end of the month, of which due notice will appear.

J. G. WEAVER.

Newport, August 13, 1858.

P. S. The proprietor employs no runners or drummers on board the boats, or at the wharves, to puff his own house at the expense of his neighbors.

EXCURSIONS.—Steamer Eagle's Wing made and excursion to this city and Rocky Point yesterday, arriving at Long Wharf about 12 o'clock. She brought about four hundred passengers, quite a number of whom stopped at Newport. There was a band of music on board.

The steamer Neptune, of Boston, made an excursion to Wood's Hole, Thursday, returning here yesterday about noon, and leaving immediately for Stonington. She will return here again to-day, and in the afternoon take her final departure for Boston.

"SAMPSON" CAGED AGAIN.—William Sampson, who was before the Justices' Court yesterday morning and released on *payment* of $3 and costs, commenced cutting up his shines among the "Philistines" on the hill in the afternoon, and was by another class of "Philistines" captured and caged once more. He will have till next Tuesday to "let his hair grow," when perhaps we may witness some extraordinary feats of strength.

ACCIDENT.—As Mr. George H. Norman, of this city, was riding to the Fort yesterday morning in company with Mr. Clarendon of the United States Hotel, New York, the carriage was overturned, throwing both gentlemen to the ground, and breaking Mr. Norman's left arm at the wrist. The other gentleman was but slightly injured. Mr. Norman was out yesterday afternoon. Dr. Sweet has been sent for to set the broken limb.

☞ The Newport correspondent of the *Narragansett Weekly* seems to have "caved in," nothing having appeared in that paper from him for two weeks. The onslaught upon the Police and the hackmen in his last was probably too much for him. Hadn't he better take another draft from the columns of this paper?

PERSONAL.—Hon. Edward Everett arrived in town yesterday in the steamer Perry. He is the guest of Sydney Brooks, Esq.

Hon. Nathaniel B. Durfee is sojourning for a few days in Newport, at the Atlantic House.

☞ The attention of our readers, and *the ladies* in particular, is invited to the advertisement in another column, of the sale of Watches and Jewelry by Auction, this afternoon, at 3 o'clock, expressly for the ladies—and in the evening for gentlemen—at 150 Thames Street.

The ships of the American navy are *entirely* clothed with sails made of hemp duck of Scotch or Russian manufacture, notwithstanding the fact that the cotton duck, now made in this country, is upon the whole, *decidedly superior* to the foreign hemp duck, as is shown by the fact that for the last six or eight years *all* the vessels in our merchant service and whale fisheries use it in preference to the foreign article.

The Boston *Post* states that several young ladies have been attacked with partial paralysis of the hands and arms, after devoting some time to the modeling of wax flowers. The white wax contains white lead; the green, copper; the yellow, chrome yellow; the orange, chrome yellow and vermillion—strong poisons all; while many other kinds of wax are equally poisonous.

Wm. Walker, of Graham township, Clearfield county, had a miraculous escape from death a few days ago. While whetting a scythe, under a tree, the scythe and tree were struck by lightning and shattered to atoms, while he escaped with a severe shock. He was able to run off home.

The election in Iowa takes place on the first Tuesday in October, instead of the first Monday in August as heretofore. Five State officers and two members of Congress are to be elected.

On Friday evening, a whole family, consisting of four persons, living in Lancaster, Pa., were poisoned by some substance in their tea, supposed to be arsenic. Fortunately, antidotes were applied in time, and their lives saved.

Bears are uncommonly plenty in New Hampshire, this season.

THE ROBBERY OF THE HATTERS' BANK.—The robbery of the Hatters' Bank Bethel, Conn., was effected by making entrance to the bank building and cutting a hole under the table in the Directors' room, which enabled the robbers to reach the vault, by crawling under the floor. When they reached the vault, they dug away at its foundation until the "bottom fell out," and the capital and cash of the bank was at the disposal of the burglars. About $20,000 in bills, which lay upon one of the shelves of the vault, escaped the notice of the rogues. A reward of $5000 is offered for the capture, and conviction of the robbers, and the return of the money.

The Hartford *Times* gives the annexed account of the robbery:

"The robbers entered the main door of the Bank in the night, by means of a skeleton key, proceeded to the directors' room in the rear, took up the carpet on one side of the room, and then sawed out a trap door under the large centre table, through which they entered to the vault below.

Here they worked evidently for a week nights, until they succeeded in undermining the vault, and taking therefrom $89,000. After they had finished their night's work, they came up through the trap door, replaced it, put down the carpet and tacked it down, and left the Bank apparently precisely as they found it.

For fear the table might be moved and the trap door get displaced by being stepped on, they inserted screws in the boards to keep them from moving. Thus they secured their plunder and decamped, unsuspected, even.

On Monday morning the officers of the bank went to the vault to unlock it, and found that the bolt to the inner door would not move, and supposing that the lock was out of repair, they worked at it until noon, when they succeeded in opening it, found a plug in the key-hole on the inside, and the bottom of the vault dropped out. This was the first intimation they had that the bank had been molested. The robbers had worked in the rear and underground.

There were two concerned in the robbery, one boarded at the hotel adjoining the bank, and the other boarded at Forester's hotel in Danbury. They were well known by persons in the vicinity, but no one suspected their business. A week ago Saturday the one who boarded at the hotel next to the bank, left his room late in the evening with a box under his arm, and did not return again.

The whole capital of the Bank was $100,000. The rogues took $85,000 of it; $7,000 in specie, and $1,300 in bills of other banks, the balance in bills of the Bank.

The quality of the same shall be equal, if not superior, to any vended. He would remark that the cream made "at home" in the "patent freezers," cannot compare, for softness and delicacy of flavor, with that made with much more labor; as the construction of the machine will not admit of the manifestation necessary; besides, his patrons may have the advantage of a great variety in flavor and composition, some of which are made exclusively by him; he has fancy, petit, and statuary forms.

MEDICINES.

THE LIVER

INVIGORATOR,
PREPARED BY DR. SANFORD,
Compounded Entirely from Gums,

IS One of the best Purgative and Liver Medicines now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

SANFORD'S LIVER INVIGORATOR

[illegible]

All who use it are giving their unanimous testimony in its favor.

☞ Mix Water in the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a Diseased Liver.

DOVER, N. H., Feb. 2, 1857.

PROF. O. J. WOOD & CO.—Gents: Within a few days we have received so many orders and calls for Prof. O. J. Wood's Hair Restorative, that to day we were compelled to send to Boston for a quantity, (the 6 dozen you forwarded all being sold,) while we might order a quantity from you. Every bottle we have sold seems to have produced three or four new customers; and the approbation, and patronage it receives from the most substantial and worthy citizens of our vicinity, fully convince us that it is A MOST VALUABLE PREPARATION.

Send us as soon as may be one gross of $1 size; and one dozen $2 size; and believe us yours very respectfully,

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative, we did so with little hope of success, but, to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair.

We are, yours respectfully,

PROF. O. J. WOOD—Dear Sir: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours respectfully,

Sewing Machines,

ATWATER'S
PATENT FIRST PREMIUM
FIFTEEN DOLLAR
FAMILY SEWING MACHINE,
Upon an Entirely New Principle.
($25 WITH TREADLE.)

AWARDED the First Premium, Silver Medal and Diploma, at the New York State Fair, held at Buffalo Oct. 9, 1857, for Practical utility, simplicity, capacity, durability; and beauty, Singer's and Wheeler & Wilson's were in competition.

COMMITTEE OF AWARDS—J. C. Cuyler, Editor Albany Morning Express; Phineas Staunton, Secretary of Ingham University, N. Y.; M. B. Oviatt, Practical Mechanic, Rochester, N. Y.; Hon. Calvin Hurlburd, N. C.

(HAND MACHINE, $15.)

A truly wonderful development which astonished the scientific at Washington, and all who have seen it since, and will ever remain a monument of Mechanical Genius, to astonish the world, patented May 5, 1857.

This machine is the production of B. Atwater, Esq., well known to the scientific world, who, after several years of intense study and experiment, has produced this most wonderful, ingenious, and yet simple machine, which has been pronounced by scientific and skillful mechanics, to be the most durable, practical, and complete machine ever invented, or that ever can be. The examiner of Sewing Machines at the United States Patent Office remarked, that "It was the most marked improvement in sewing machines he had seen from the beginning."

It is true, that in this inventive age, the assertion that a machine can not be improved or simplified, is most too strong to meet the approval of the public; but there is a point beyond which simplicity ceases to be of any use, which is emphatically true of this machine.

Unlike other machines, it does not require the thread or silk should be made on purpose for it. Any kind of thread or silk can be used, and that too, from the original spool, without the necessity of re-winding. It can be adjusted in an instant to any length of stitch desired, by simply turning a screw. The stitch can be drawn tight or loose by the same means, and the needles as readily changed when desired. It will sew any kind of a fabric (fine or coarse), that any other machine can do.—They are made to go either by hand or treadle; and to add one-third to their present size and strength would make a capital machine for stitching leather.

MR. ATWATER:—Dear Sir—Having bought one of your Family Sewing Machines, and finding it all you recommended it to be for practical utility, we feel it a pleasure to add our expression in its favor and believe it to be the best and cheapest sewing machine yet introduced to the public.

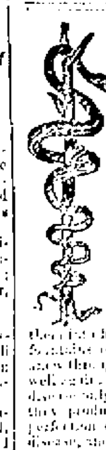
Medicines.



The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known.—Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him.

Have you the less serious symptoms of these distempers, they are the easier cured, Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. A CARD TO THE LADIES.

Dr. DUPONCO'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully effective in correcting, regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils, and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames Street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing $1 to STEVENS & CO., Box 891, Newport Post Office, can have the Pills sent confidentially by mail to any part of the city or country.

Medicines.

DR. DOW'S
GRAND MEDICAL HOUSE AND OFFICE,
NO. 7. ENDICOTT-ST., BOSTON. NO. 7.
Established for the permanent cure of all Private Diseases and the Suppression of Quackery.

DR. DOW, so well known for the last fifteen years in this city, where he has confined his practice to the treatment of mercurial, syphilitic and other diseases of a private nature, is consulted above, from nine in the morning till seven in the evening. Patients must call during office hours. Office not open on Sundays.

All chronic and difficult cases, such as have existed for years, are completely and permanently cured in the shortest possible time by the Doctor's improved course of treatment.

MEDICAL ADVICE.—As it is always important to obtain the services of an experienced and skillful physician call on the celebrated Dr. Dow, No. 7, Endicott street.—*Med. and Surg. Jour.*

DR. DOW will say nothing of his qualifications as a Physician and Surgeon, being a graduate of the University of Pennsylvania, Licentiate of the State Medical Society of N. Y., and for more than twelve years a practitioner of this city, during which time he has no doubt cured more of those difficult and chronic cases (such as nothing but practical experience can ensure success) than by other physicians in Boston.

By his late improved course of practice, Gonorrhea, Gleet, Strictures, and other local affections of the urinary and seminal organs, are cured in a very few days without mercury, regard to diet, or fear of exposure.

SECONDARY SYPHILIS, &c.

Scrofulous affections, ulcers in the throat or neck, nodes and caries of the bones, eruptions on the skin, and every impurity of the blood thoroughly and completely eradicated. Persons afflicted with any private complaints should call as early as possible after contracting the disease, as much time and money may be saved thereby.

TO YOUNG MEN.—You who are troubled with seminal weakness, generally caused by a bad habit in youth, the effects of which are nocturnal emissions, pains and dizziness in the head, forgetfulness, sometimes a ringing in the ears, weak eyes, &c., terminating in consumption or insanity, if neglected, are speedily and permanently cured by Dr. Dow.

TO MIDDLE-AGED OR EVEN OLD MEN, whose procreative organs have become inactive or weakened by the excesses of any kind, but especially bad habits in youth, Dr. DOW would respectfully say that from the extensive practice which he has had in treating the above complaint for over fourteen years, he is enabled to guarantee a perfect cure in all cases; that is, a restoration of those organs to their natural and healthy state. Hardly a day passes that he is not called upon to cure the above complaints, and he is happy to say that his course of treatment has invariably effected a speedy cure.

Beware of all kinds of Exhilerating Cordials, as they are of no use.

To the unhealthy, the mere mention of the name of the far-famed and justly popular physician, Dr. Dow, that he can at all times be found at home that he is surpassed by none in curing all forms of disease however protracted, ill-treated, or mercurially affected, is a consolation to his patients, and an honor to himself.—*Balt. Amer.*

All afflicted with private complaints, if possible, should consult Dr. Dow, whose medical education is not surpassed by any physician in the country. In his skill, honor and integrity, all may rely with safety, while most all of the medical practitioners are without honesty or responsibility, their pretensions being grounded in ignorance and assumption.—*Republican Argus.*

There are a great many young men whose cases have become very difficult of cure, either from neglect or ill-treatment. We would advise all such to call on Dr. Dow, of Boston, whose practical experience in certain diseases no doubt exceeds that of any other physician in America.—*Journal of Health.*

Dr. Dow consults with physicians, as usual, on difficult chronic diseases. Charges reasonable.

TO FEMALES.

All diseases peculiar to females, such as suppressions, irregularities, &c., speedily and effectually removed. The efficacy of his remedies for the cure of the above affections, has been well tested in his extensive practice for the last fifteen years in this city, and never was known to fail in effecting a cure where the directions were followed a reasonable time.

Now is the time to use the Great Spring and Summer Medicine.

Dr. LANGLEY'S ROOT AND HERB BITTERS.

Compound of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c.,—all of which are so compounded as to act in concert and assist Nature in eradicating disease

The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life and vigor, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body. They cure and eradicate from the system Liver Complaint—that main-wheel of so many diseases—Jaundice in its worst forms, all Bilious diseases and Foul stomach, Dyspepsia, Costiveness, Humors of the blood and skin, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pain in the Side and Bowels, Flatulency, Loss of appetite, and all kindred complaints caused by a torpid or diseased Liver, a disordered stomach, or bad blood, to which all are more or less subject in spring and summer.

If taken in large doses, fever and ague may be broken up and cured at once. This has become a standard medicine, and is decidedly the *best* the world ever saw.

Price only 25 cents for the pint, and 37 1-2 cents for the quart bottle.

Sold by all medicine dealers everywhere.—Orders should be addressed to **J. O. LANGLEY,** Proprietor, 11 Marshall street, Boston, Mass.

ROSEMARY

Combines everything required to give richness, beauty and elegance to the hair. It removes dandruff, and relieves headache. To force the growth, to prevent falling off, and restore hair to bald places, it has been used with positive success. It is presented to the public in an open, candid manner, stating, as the name indicates, the leading ingredients, viz:—

Rosemary and Castor Oil,
both common and well known articles.

The following persons can be found, and are well known. We give a few extracts from their opinions about the

ROSEMARY.

ABRAM A. TRUAX, Esq., Rotterdam, N. Y., writes—"Am 75 years of age, and was bald 35 years; have used two bottles of your Rosemary, and my hair is now two inches long."

REV. SYLVANUS COBB, Boston Mass.—"We had rather pay for it than have other preparations for nothing," &c.

MRS. D. TAFT, Cambridge, Mass.—"Have used your Rosemary with great success in keeping my hair black, as age was turning it fast."

MR. DANIEL B. CONNOR, Boston, Mass.—"Eight months ago I was bald—my hair is now long and healthy—I know your Rosemary has forced it to grow," &c.

OSSIAN E. DODGE, Esq., Vocalist, now of Cleveland, Ohio—"It gives a rapid growth and dark glossy texture, and does not soil the hat or pillow in the least; I know of nothing so valuable for the hair."

FRANCIS ADAMS, Esq., Boston, Mass—"It is the best thing for children's hair—the ladies are delighted with it," &c.

REV. C. W. DENISON, Buffalo, N. Y.—"I find it excellent for the hair."

MRS. L. SWEENY, Boston, Mass.—"It restored my hair to bald head, and from grey to black color," &c.

HON. C. HUNT, Lowell, Mass.—"To remove dandruff, and keep the hair moist and glossy, we have never found anything so good."

M. HOFFMAN, Esq., (Editor of German Weekly,) Boston, Mass., and his wife Eva, ay—"It causes hair to grow vigorously—gives beauty and splendor—is better than European articles." &c.

C. H. STOCKING, Esq. (Trinity College,) Hartford, Ct.—"By using it my hair turned from a sandy to a brown color; it was naturally dry, but it is now moist."

A. F. WOOD, Chemist, New Haven, Conn.—"I saw a fair head of very dark hair on a man that six weeks ago was bald. He had used nothing but your Rosemary," &c.

REVERE HOUSE, Boston, July, 1857. "I had no more hair on my head than an infant, seven months ago. It is now thick, healthy, growing rapidly, and of a fine, dark color. I can positively say that J. RUSSELL SPALDING'S Rosemary, obtained at 27 Tremont street, opposite the Museum, has produced this change."—SARAH J. LORD.

Medicines.

TO THE LADIES—The celebrated Dr. Dix particularly requests all ladies who may need a medical or surgical adviser, to call at his rooms, No. 21 Endicott street, Boston, which they will find arranged for their especial accommodation.

Dr. Dix having devoted over 18 years to this particular branch of the treatment of diseases peculiar to females, it is now conceded by all, (both in this country and Europe,) that he excels all the other known practitioners in the safe, speedy and effectual treatment of all female complaints.

Dr. Dix's French Renovating or Female Monthly Pills are to be had genuine only at this office.

These pills are unrivaled in efficacy and superior virtues in regulating all female irregularities. Their action is specific and certain, producing relief in a very short time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practised by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders, who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the old doctor at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country, with directions.

The best of accommodations furnished for the sick, with kind and attentive nurses, if they wish, at a reasonable rate.

This office is strictly private, with special apartments for ladies, and is so arranged that it is impossible for patients to come in contact with each other.

Recollect the number—21 Endicott street.

N. B. All secrets are most strictly confidential,

All letters will be promptly answered. Address Dr. L. Dix, 21 Endicott st., Boston.

◆

CONFIDENTIALLY to the afflicted.—Dr. L. DIX still continues his old establishment, 21 Endicott Street, Boston, where he can be consulted on all private complaints. All persons in any way afflicted may rely on a sure and speedy cure being performed.

Dr. Dix has for a number of years paid particular attention to the study and practice of private diseases, and so perfect has he become acquainted with them, that, without boasting, he will warrant an effectual cure in the shortest possible time, no matter how long standing the case may be.

In offering the result of his long study and practical experience to the afflicted, he is governed by humanity only, for so long have they been deceived by miserable quack nostrums, that it is time that some healthy mode of practice should be introduced.

The old doctor professes to be eminently skillful in curing gonorrhœa, gleet, strictures, syphilis in all its stages, primary, secondary, tertiary, or hereditary seminal weakness, nocturnal emissions, general debility, impotency, and all diseases of the urinary organs. The doctor solicits a call from all who may be afflicted with any such disease, feeling confident of success, and at a great saving of time and money to his patients.

The doctor can be consulted by letter, and if the disease is accurately described, medicines will be immediately forwarded, carefully concealed.

Please remember the name and No., as Dr. Dix has nothing to do with any other office but 21 Endicott st.

P. S. The best accommodations will be furnished the sick of both sexes, with kind and attentive nurses, and at a reasonable rate

All letters requiring advice must contain one dollar, or no notice will be taken of them. Address D. L. Dix, 21 Endicott st Boston. jy1 1y d

HOWARD ASSOCIATION.
PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their forms and to give **Medical Advice Gratis,** to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important but much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. **George R. Calhoun,** Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner.—They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mistify the buyer. Prizes vary from $40 to $70,000; every prize being drawn and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of the prize that each one is entitled to, will be published after every drawing, in the following papers:—Augusta (Geo.) Constitutionalist, New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, New York Weekly Day Book, Savannah Morning News, Richmond Dispatch, New York Dispatch and Paulding (Miss) Clarion.

LOTTERIES.—The well known Maryland Consolidated Lotteries of which R. France & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present, at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1,00 to $ No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to 100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address
